

# Milestone 1.1 - Timeline

You will need to create an approximate timeline. In this milestone, you will only need to plan for the completion of work in Milestones 1 and 2. For each week, create a list of objectives to achieve in that week, and state which team member is allocated to each objective.

You can include notes such as team member availability in the plan and meeting times as well. Tasks only need to be broken down and delegated at the feature level. There are no strict guidelines for how this plan should be formatted or structured - it just needs to be understandable by your tutor.

Put your timeline in a file named planning.pdf in the root directory of this repository. In addition, throughout the project, you will need to keep a record of your meetings in the form of minutes.

Minutes should contain a summary of what was discussed and action items. Your meeting minutes document needs to have evidence of version history - use a Google Doc or update a minutes doc/folder in your repo for this.

Group Distribution Key:

- Andrew
- Jeffery
- Mark
- Yang

## Week 5

- General Meetup and Planning of Project
- Informal Meeting 13/10
- Have Everyone Read Project
- Establishment of Group Roles for Milestone 1
- Establishment of Rough Timeline

	Sunday 10/10	Monday 11/10	Tuesday 12/10	Wednesday 13/10	Thursday 14/10	Friday 15/10	Saturday 16/10
General		<b>Project Release</b>		Informal Meeting			Informal Meeting
Deliverables						Rough Timeline & Write Week 6	Complete Draft UML 1.2

## Week 6

- Keep Planning
- Formal Meeting Mid-Week
- Finalise Milestone 1 by 23/10
- Send UML for Milestone 1 to Adam
- Roles (everyone work as a team but deliverables are written in pairs):
  - Andrew and Jeffery: Milestone 1.1 Timeline, Minutes & Assumptions.md
  - Mark and Yang: Milestone 1.2 & Milestone 2.1 UML
- Start Tests

	Sunday 17/10	Monday 18/10	Tuesday 19/10	Wednesday 20/10	Thursday 21/10	Friday 22/10	Saturday 23/10
General		Informal Meeting			Formal Meeting Begin UML 2.1		Plan Tests & Implementation Based on UML 2.1
Deliverables		Finalise Final UML 1.2			Update Gitlab to Reflect Progress	Minutes Upload Complete Draft UML 2.1	Update Timeline & Write Week 7

## Week 7

- Write Tests Based on Specification
- Send UML for Milestone 2 to Adam
- Implementation
- Formal Meeting Every 2 Days
- Check Coverage
- Modify UML 2.1 Based on Implementation
- Finalise Milestone 2 by 30/10
- Roles:
  - Andrew: Update Timeline, Rare Collectible and Buildable
  - Jeffery: Minutes, Collectible
  - Mark: UML, Movable
  - Yang: UML, Static
  - Everyone: Assumptions.md, JSON exporting JSON and overall implementation
- Finish Tests and Finish Implementation

	Sunday 24/10	Monday 25/10	Tuesday 26/10	Wednesday 27/10	Thursday 28/10	Friday 29/10	Saturday 30/10
General	Formal Meeting Start Tests		Formal Meeting		Formal Meeting		Formal Meeting
Deliverables	UML 2.1 Feedback	Finalise Tests		Implementation & Tests Check	Adjust UML 2.1	Finish Implementation Update Minutes & Assumptions	Clean Implementation & Check Coverage

## Week 8

- Finalise Milestone 1 & 2 for Submission
- **Everyone**: Final Documentation

	Sunday 01/11	Monday 02/11	Tuesday 03/11	Wednesday 04/11	Thursday 05/11	Friday 06/11	Saturday 07/11
General	Documentation	Milestone 1 & 2 Due	N/A	N/A	N/A	N/A	N/A
Deliverables	Documentation		N/A	N/A	N/A	N/A	N/A
